how little refiacce could be placed on the statements put forward as emanating from Chinese people, Chinese officials especially. In support of what evile of the century. we then said, we commend to the anti-opium leaguers the following extract from a letter of the Chungking correspondent of the N.-C. Daily News, dated Nov. 17 :- We hear of many Europeans on their way up stream, and aundres must be again making their fortunes. For all sorts of junks indeed the demand of late seems to have been in excess of the supply, probably owing to a recent boom in opium. Indian Housware Bound :- Frigge, Nov. 12 opium beware! Your days are numbered, and right or wrong, the Indian exchequer must be elsewhere replenished, for Chinamen are thrifty and will not buy Indian opium dear, when they can buy Szechuan opium cheap. Besides, if it goes on at its present rate. the population must diminish; the ravages of opium are appalling to those who live amongst the poppy fields, and e N. P. Co. s. s. Hankow, from Tacultivate social relations with the Chinese. It is only gradually one becomes aware of this, as in first one

family of one's acquaintance, then in another, one sees the sad results.' The above sentences are penned by one who is apparently opposed to the use of opium. If, as he shows, the Indian opium traffic is to be permanently crippled bythe competition of the native-grown article, there will cease to be an excuse for the existence of the Anti-Opium League, unless its officials direct their attention, as we previously advised them, to a crusade against the poppy growth in China. Without relaxing their efforts in England and Ladia, let them now appeal to Prince Kung and the other Chinese officials, high and low, and the poppy cultivators, and see how their appeals will be answered. The Friend of China recently told us that 'Chine's resistance to the opinm traffic has been crushed out at the point of the bayonet, and we took the opportunity of pointing out then that the decreased importation of Indian and Persian opium into Chioa was due to the fact that China was now growing her own opium, and we also called attention to the insincerity of the appeals of Chinese officials to the people of England' - to wit, the Anti-Opium League-to stop the foreign opinm trade. The officials who t-ll us of tens of millions of human beings in distress who are looking on tiptoe, with outstretched necks, for salvation to come

from the just and benevolent men of England, might turn an introspective eve upon the thousands of miles of poppy fields in China, and, with outstretched necks, look for salvation elsewhere than from England. It must not be inferred from our remarks upon the opium question on this and on previous occasions that we advocate what has been styled the permicious and degrading vice of uplum-amoking (or optumenting). Whatever has been sald in delence of opinio-smoking and its non-injurious effects when indulged Trees.a.
